## Candidate Qualifications:

- Non-Thai nationality
- An applicant **without** a high school diploma that complies with the regulations of the Thai Ministry of Education or its equivalent

## Requirements:

- A successful applicant must **enroll as an external student** at SIIT (non-degree student).
- An applicant must register for courses planned for a regular student.
- During a period of enrolling as an external student, the student is required to submit a high school diploma that complies with the regulations of the Thai Ministry of Education or its equivalent to change the student's status to be a regular student (a degree student) by the semester end in your 1st or 2nd semester.
  *An example of a certificate/test equivalent to a high school diploma complying with the regulations of the Thai Ministry of Education is **General Educational Development (GED).**
- **To change the student status** from an external student to a regular student, at least three credits registered during the period of an external student must be transferred to the student's curriculum.
- Only courses with **at least "C" grade can be transferred** to the student's curriculum.
- In order to **obtain a bachelor's degree**, a student must **enroll as a regular student for at least one academic year.**

**Remark: Please be informed that after enrollment, your external student status will be valid only for 2 semesters (1 year) only. If you fail to submit a high school diploma that complies with the regulations of the Thai Ministry of Education or its equivalent within 2 semesters (1 year), your external student status will be revoked and it could not be changed to the regular student.**

# The Agreement of Admission to Academic Program

**SIIT offers the following academic programs:**

1.General Engineering Group (5 programs including Civil Engineering, Electrical Engineering, Chemical Engineering, Mechanical Engineering, and Industrial Engineering and Smart Logistics Programs)

2.Civil Engineering Program

3.Electrical Engineering Program

4.Chemical Engineering Program

5.Mechanical Engineering Program

6.Industrial Engineering and Smart Logistics Program

7.Computer Engineering and Digital Engineering Group (2 programs including Computer Engineering and Digital Engineering)

8.Business and Supply Chain Analytics Program

Applicants admitted to the General Engineering Group (1) and Computer Engineering and Digital Engineering Group (7) are eligible to select an academic program at the end of their first academic year. For those who wish to change their academic program, they are allowed to reselect only the academic program listed in the same group during the academic program selection. Successful admission to a preferred academic program depends on a student's grade-point average at the end of their first academic year, as well as the demand for the chosen program.

Applicants admitted to the Civil Engineering Program (2), Electrical Engineering Program (3), Chemical Engineering Program (4), Mechanical Engineering Program (5), Industrial Engineering and Smart Logistics Program (6), and Business and Supply Chain Analytics Program (8) cannot change their selected academic program throughout their study.
